Trades documentation

Different requirements apply for the different trade disciplines depending on the climate zone. If your projects comply with the below specified limit values, we will be please receive your trades documentation.

Ventilation

Mechanical ventilation with heat recovery is an important element for buildings that are highly efficient in terms of energy. Have you installed any ventilation systems? The following technical specifications must apply for this:

Climate zone	Arctic	Cold	Cool, temperate	Warm, temperate	Warm	Hot	Very hot
Heat recovery [%] ≥	75	75	75	75	n/a	75	75
Electrical efficiency [W/(m³h)] ≤	0.45	0.45	0.45	0.45	0.45	0.45	0.45
